SYSTEMS ENGINEER

Systems Engineer (UNIMET) with a Final Degree Project awarded with honors, specializing in Artificial Intelligence. I have a proven track record in developing Full-stack architectures and autonomous agents that have achieved operational cost reductions exceeding 90% within the banking sector. I am an expert in n8n workflow orchestration, Google Cloud ecosystems, and the development of scalable software.

WORK EXPERIENCE

PadTech Solution, C.A. – Venezuela

09/2025 – Present

CONTRACTOR AT BANESCO, BANCO UNIVERSAL – AI DEVELOPER

- Full Stack development of an AI-powered credit analysis application, resulting in over 90% savings in man-hours.
- Agentic Support Chatbot Development: Lead the design and implementation of an autonomous solution that reduced operational costs by over 90%.
- AI-Driven Document Management Systems: Developed multiple analysis tools that optimized productivity and drastically reduced man-hours through intelligent automation.
- Full-stack & AI Architecture (GCP & n8n): Designed and implemented end-to-end solutions, ranging from Front-end and Back-end development to AI agent orchestration and automation workflows within the Google Cloud ecosystem.

Ministry of Natural Resources and Environment – Honduras (Remote)

03/2025 – 05/2025

INTERN – AUTOMATION ARCHITECT

- Automated the processing of controlled substance import permits with Power Automate, in cooperation with other Microsoft tools (Teams, Forms, Excel 365), eliminating manual bottlenecks and ensuring strict regulatory compliance with international and national environmental protocols.

Inversiones Galiang, C.A. – Venezuela

01/2025 – 09/2025

CONTRACTOR AT BANESCO, BANCO UNIVERSAL – FULL-STACK SPECIALIST ARCHITECT

- *Dual IT Roles:*
 - Version Control (IBM AS/400): Primary lead for release management and versioning for a high-stakes Core Payments Migration project.
 - Reporting & Analytics: Developed dashboards and key performance indicator (KPI) reporting for the Core Payments migration.
- Productivity Solutions: Built custom tools using Google AppScript and Appsheet for the Operational Service Center and Operations Enablement Management departments.

Baneco Banco Universal – Venezuela

01/2024 – 12/2024

INTERN – DEVELOPER

- Developed Oracle Service Bus (OSB) integration services.
- Web and API development.
- Assisted in a major banking software technological migration project.

Universidad Metropolitana de Caracas – Venezuela

09/2023 – 07/2024

TEACHING ASSISTANT – INTRODUCTORY MATHEMATICS

- Conducted supplemental practical lessons for undergraduate students.

INTERN – DATA MODELING & INTEGRATION

- Designed and developed data tables.
- Developed integration services using Oracle Service Bus (OSB).

TECHNICAL SKILLS

- AI & Automation: n8n (Automated workflows, AI agent development & orchestration).
- Cloud Computing: Google Cloud Platform (GCP) development ecosystem.
- Full-Stack & Mobile Development: Node.js – Web Development (React.js), API Development (Express.js) | Flutter – Mobile Development.
- Data Science & Machine Learning: Python (TensorFlow, PyTorch) – Neural Networks and DQN.
- Data Visualization: Microsoft Report Builder | Microsoft Power BI.
- Database Management: PostgreSQL Administration.
- Low-Code/No-Code Solutions: Google Apps Script | AppSheet, Microsoft Power Automate, Glide Apps.
- Tools & Methodologies: GitHub | Microsoft 365 | Agile | Scrum | Kanban.

LANGUAGES

- Spanish: Native.
- English: Full Professional Proficiency (IELTS score: 7.5/9 - Nov 2024).
- Japanese: Basic (JLPT N4 – Jul 2025).

EDUCATION

CEUPE European Business School – Madrid, Spain.

Master in Artificial Intelligence | 2026 - (2027)

Universidad Metropolitana de Caracas – Caracas, Distrito Capital, Venezuela

Systems Engineering | 2020 - 2024 | Academic Index – 17,00/20 | Academic Excellence Full Scholarship

Honorable Mention, Final Engineering Project: *“Manejo eficiente de dólares en efectivo para los comercios en Venezuela: Caso Bóveda Express Banesco Banco Universal”* [Spanish, Effective Management of dollar bills for commerces in Venezuela: Case Study of Banesco Banco Universal’s Bóveda Express]

Universidad Metropolitana de Caracas – Caracas, Distrito Capital, Venezuela

Minor: Software Development | 2024

Algorithms and Programming, Data Structures, Databases, Information Systems

Unidad Educativa Colegio Claret – Caracas, Distrito Capital, Venezuela

Highschool | 2020 | Academic Average - 18,48/20 | Recognition from El Hatillo Mayor's Office for Academic Excellence

RECOGNITIONS

- **Recognition “Lista del Rector” for Academic Excellence**
Universidad Metropolitana de Caracas | 2024
- **Recognition from El Hatillo Mayor's Office for Academic Excellence** | 2020

CERTIFICATIONS, COURSES & SUPPLEMENTARY TRAINING

Specialized Program: Deep Learning – DeepLearning.AI: Andrew Ng, Younes Bensouda Mourri, Kian Katanforoosh (2024)

- Neural Networks and Deep Learning
- Improving Deep Neural Networks: Hyperparameter Tuning, Regularization and Optimization
- Structuring Machine Learning Projects
- Convolutional Neural Networks
- Sequential Models

Google Cloud Skills

- Course: *Introduction to Generative AI*
- Lab: *Generative AI with Vertex AI: Prompt Design*

Certiprof

- *Generative AI Professional Certification (GAIPC)*

Basic ISO 27001 Information Security – Seguridad Cero: Fernando Conislla (2024)

- Fundamentals of Information Security
- How to implement and audit Security Controls
- Training based on the ISO 27001 certification exam

Black Belt 2nd Dan Karate, Competitive level – Seito Karate Do Venezuela

Violin, Advanced level – Enarmonía Music & Arts School

Advanced English Training – British Council Venezuela

Basic Japanese Training – Kyoshikai Venezuela Association
