SYSTEMS ENGINEER

Systems Engineer (UNIMET) with a Final Degree Project awarded with honors, specializing in Artificial Intelligence. I have a proven track record in developing Full-stack architectures and AI agents that have achieved operational cost reductions exceeding 90% within the banking sector. I am an expert in workflow orchestration with n8n (a platform for automated workflows and AI agents), Google Cloud ecosystems, and the development of scalable software.

EDUCATION

CEUPE European Business School – Madrid, Spain.
Master in Artificial Intelligence | 2026 - (2027)

Universidad Metropolitana de Caracas – Caracas, Venezuela
Systems Engineering | 2020 - 2024 | Academic Index – 17.00/20 | Academic Excellence Full Scholarship (100%)
Honorable Mention, Final Degree Project: *"Efficient management of cash dollars for businesses in Venezuela: Bóveda Express case, Banesco Banco Universal"*
Minor in Software Development (2024): Algorithms and Programming, Data Structures, Databases, Information Systems

LANGUAGES

- Spanish (native) · English, full professional proficiency (IELTS 7.5/9, Nov 2024) · Japanese, basic (JLPT N4, Jul 2025)

WORK EXPERIENCE

PadTech Solution, C.A. – Venezuela 09/2025 – Present

CONTRACTOR AT BANESCO, BANCO UNIVERSAL – ARTIFICIAL INTELLIGENCE (AI) DEVELOPER

n8n | Google Cloud (GCP) | AI Agents | Full Stack Development (Node.js, React.js) | DevOps | Docker

- Full Stack development of an AI-powered credit analysis application, resulting in over 90% savings in man-hours.
- Agentic Support Chatbot Development: Led the design and implementation of a solution that reduced operational costs by over 90%.
- AI-Driven Document Management Systems: Developed multiple analysis tools that cut processes from several hours to about 15 minutes.
- Full-stack & AI Architecture (GCP & n8n): end-to-end solutions spanning Front-end, Back-end, AI agent orchestration and automation workflows on Google Cloud.

Ministry of Natural Resources and Environment of Honduras – Remote 03/2025 – 05/2025

INTERN – AUTOMATION ARCHITECT

Power Automate | Microsoft 365

- Automated the request and approval process for controlled substances with Power Automate and Microsoft 365, complying with the Montreal Protocol regulations and the UTOH guidelines.

Inversiones Galiang, C.A. – Venezuela 01/2025 – 09/2025

CONTRACTOR AT BANESCO, BANCO UNIVERSAL – FULL-STACK SPECIALIST ARCHITECT (2 IT ROLES)

IBM AS/400 | Microsoft Report Builder | Power BI | Google AppScript | AppSheet

- Role 1 – Version control and release management (Deployment Management) for IBM AS/400 programs following DevOps principles, in the Core Payments migration.
- Role 2 – Reporting and KPI dashboard for the Core Payments migration project.
- Productivity solutions in Google AppScript and AppSheet for the Operational Service Center and the Operations Enablement Management departments.

Banesco Banco Universal – Venezuela 04/2023 – 12/2024

INTERN – DEVELOPER & DATA INTEGRATION (2 INTERNSHIPS)

OSB | Web Services and APIs | Data Table Design

- Developed Oracle Service Bus (OSB) integration services, Web and APIs; designed and developed data tables.
- Assisted in a banking software technology migration project.

Universidad Metropolitana de Caracas – Venezuela 09/2023 – 07/2024

TEACHING ASSISTANT – INTRODUCTORY MATHEMATICS

- Supplementary practical lessons for younger students.

FREELANCE WORK

Full Stack Development for a Business Consulting Firm 06/2026 – Present

Next.js | React | TypeScript | Supabase (PostgreSQL) | OAuth 2.1 | Vercel | Playwright

- Design and development of custom web applications for the company, adapted to mobile and able to work offline.
- Implementation of centralized authentication, roles and permissions, and administration consoles.
- Quality and security assurance: automated testing, continuous deployment, and technical documentation.

CERTIFICATIONS

Specialized Program: Deep Learning – DeepLearning.AI, Andrew Ng (2024)

Google Cloud Skills – Introduction to Generative AI · Generative AI with Vertex AI: Prompt Design

Certiprof – Generative AI Professional Certification (GAIPC) and for Marketing (GAIFMPC)

COURSES & SUPPLEMENTARY TRAINING

Basic ISO 27001 Information Security Workshop – Seguridad Cero: Fernando Conislla (2024)

Interests & additional training: Karate 2nd Dan (competitive) · Violin, advanced · Advanced English (British Council) · Basic Japanese (Kyoshikai)

OTHER TECHNICAL SKILLS

- Development: Flutter (mobile) | Python (TensorFlow, PyTorch): neural networks and Reinforcement Learning (DQN)
- Data & no-code: PostgreSQL administration | Glide Apps
- Teamwork: GitHub | Agile | Scrum | Kanban

AWARDS

- **"Lista del Rector" (Dean's List) for Academic Excellence** – Universidad Metropolitana de Caracas | 2024
- **El Hatillo Mayor's Office Award for Academic Excellence** | 2020
